

Data Collection & Management

Responsibilities and Practical strategies for database development, data entry, cleaning and storage

Are you involved with research?

Would you like practical help with data management essentials such as coding, entry, backup, validation and cleaning?

Or the basic do's and don'ts of setting up databases or a data management plan?

Do you need to brush up on your responsibilities as a researcher for data collection, storage and archiving?

This seminar will focus on how to collect and manage high quality data to ensure a successful project outcome.

Associate Professor Sue Skull

Assoc. Professor Sue Skull is a paediatrician, epidemiologist, and public health physician. She is an experienced teacher of research methods and enjoys helping others improve and enjoy their research experience. She is Head of the Research Education Program at PMH.

Friday, 25 August 2017

12:30 PM – 1:30 PM

Princess Margaret Hospital
Macdonald Lecture Theatre

Hosted Videoconference Sites:

Fiona Stanley Hospital
Sir Charles Gairdner Hospital
Royal Perth Hospital
Curtin University
